*Speeds up to 1Gbps*

*Free Install + Router*

*No Contention*

*100% Uptime SLA*

*Award Winning Support*

*Expert Advice*

*4 hour Rapid Response*

## Speeds up to 1Gbps

Ethernet Leased Lines provide dedicated, guaranteed and uncontended speeds from 100Mbps to 1Gbps. With end-to-end fibre over the BT, TalkTalk or Virgin ATM networks, the latency is ultra-low and reliability ultra-high. With over 20 years experience and the best state-of-the-art routing equipment and links in our network, you can be sure of the highest performance and service.

### Award Winning Service

MacAce is a multi award-winning internet service provider, finalist and winners of a cabinet full of prestigious national awards from the likes of ISPA and IDG Media since 2003. Our NOC operates 24 hours a day. Call queues are ultra low with an average wait time of less than 60 seconds and 90% of calls are connected within 12 seconds.

### Reliability

Because our Ethernet leased Lines are full fibre and bypass the congested ADSL and Fibre networks, they are significantly less prone to downtime, errors and outages - let alone any congestion. And with a 100% SLA and 4 hour repair response time you can be sure that if there is a problem, it'll have the highest priority. A data-centre-grade Cisco router is provided free of charge, designed to maintain extremely long uptime and reliability as well as provide best-in-class throughput performance.

### Why choose a MacAce Leased Line?

- Consistent, high-speed internet connection with very low latency.
- Dedicated, guaranteed bandwidth – perfect for multi-user environments.
- Symmetrical bandwidth – full speeds up and down.
- Rock solid reliability with 100% uptime.
- Premium Care Level - 4 hour rapid response.
- Independent advice – we provide lines based on all three major operators.
- Security – point-to-point leased lines avoid the internet completely and are completely private.
- 20 years experience - and an uncompromising commitment to high levels of service and performance.

### Best Prices

# SPECIALIST CONNECTIVITY SOLUTIONS

*With over 20 years experience, MacAce can provide specialist advice, installation and configuration for a range or different organisations.*

Education

MacAce has masses of experience with the education sector and can provide advice, solutions and consultation for Firewalls and Web-Filtering from all of the major players as well as cloud solutions to suit your budgets.

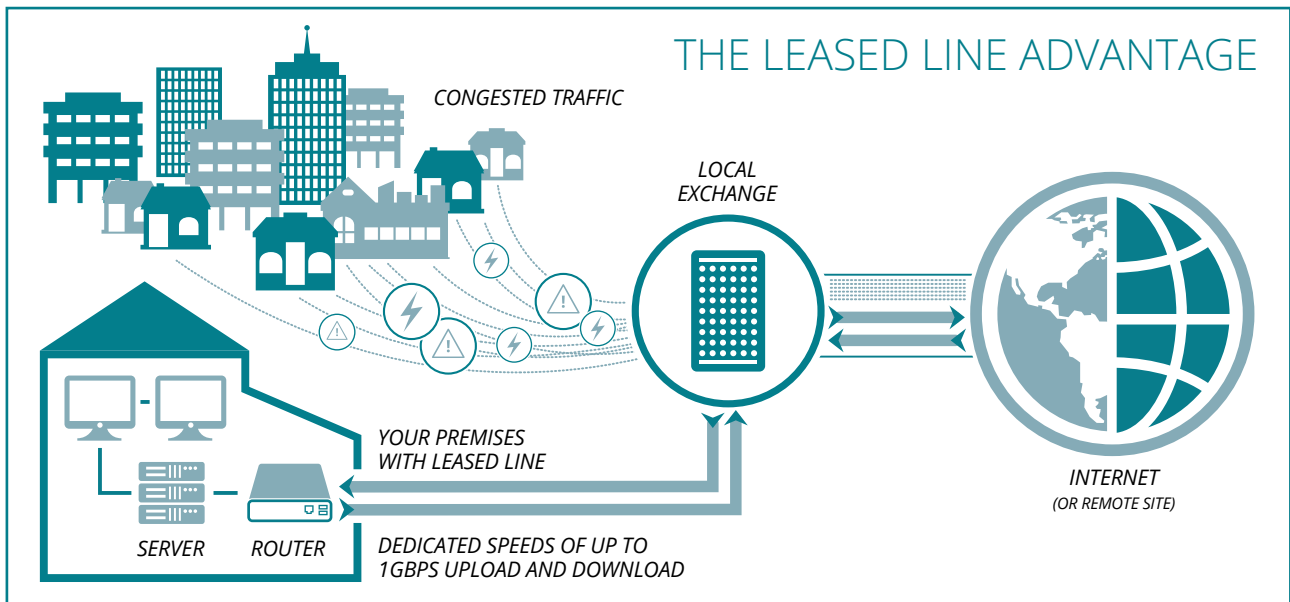

Business

Leased Lines for business internet or point-to-point to connect offices. MacAce has a wealth of experience in the digital media sectors as well as providing bespoke solutions to local and national government agencies.

Shared Use

Solutions for shared-tenancy buildings, offices, campuses, flats and retirement homes. With vast experience in GPON, infrastructure cabling, and the latest WiFi, we're sure we can provide you with the best solution to meet your budget.

## MacAce thinks different ...

We're a Mac-specialist internet service and telecommunications provider with a world class network and a team of fanatical Apple and Internet professionals on hand to help. We believe in our services and back them up with around-the-clock support and a money-back guarantee.

Just like Apple themselves, we try to innovate. And just like their products, we aim to offer high quality user-friendly services to all businesses. When we design a product or service, we too are certainly not afraid to think different.

And whilst we are Mac by nature, our services fit well into mixed Mac, Windows and Linux environments just as easily.

## FREE CISCO ROUTER AND FREE INSTALL

Every Lightspeed Ethernet Leased Line is provided with a data-centre-grade CISCO router. Fully configured and installed on site for you and supported within the 4 hour premium care level.

Free install is standard on all 100Mbps to 1Gbps 3 year contracts (subject to survey).
